SUMMARY

Frontend Software Engineer with **2.7 years** of experience in **React.js, Next.js, TypeScript, and JavaScript**, building scalable and SEO-optimized web applications. Strong experience in **SSR, SSG, ISR**, performance optimization, responsive design, and reusable UI components. Hands-on experience integrating AI APIs such as **OpenAI, Gemini, and Claude** using REST APIs. **Immediate joiner**, open to remote and on-site opportunities.

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3

Styling: Tailwind CSS, Sass / SCSS, Responsive Design

Performance & SEO: SSR, SSG, ISR, Code Splitting, Lazy Loading, SEO Optimization

State Management & Data: Redux Toolkit, React Query, REST APIs

AI & Integrations: OpenAI API (GPT), Gemini API, Claude API

Tools: Git, Postman, Vercel, VS Code

WORK EXPERIENCE

Zan – Zari Group Limited (Contract) Sep 2025 – Nov 2025

Frontend Developer

- Developed AI-driven product features for a high-performance web platform serving global users.
- Executed AI workflows using OpenAI, Gemini, and Claude to enhance content automation and user experience.
- Constructed modular, reusable front-end components to support rapid feature delivery and clean architecture.
- Boosted performance and SEO using SSR, SSG, dynamic routing, and code splitting in Next.js.
- Collaborated with back-end and AI teams to ship production-ready AI features.

Craftnotion Private Limited (Full-time) Mar 2023 – Jul 2025

Frontend Developer

- Led front-end development within an 8-member cross-functional team, contributing to architecture and feature planning.
- Delivered SEO-optimised, high-performance applications using Next.js (SSR, SSG, ISR), React, and TypeScript.
- Engineered reusable, scalable component systems, improving development speed and UI consistency.
- Reduced page load time by 25% through code splitting, lazy Loading, and image optimisation.
- Shipped 5+ production-ready pages/components used in live client and internal products.
- Resolved 10+ UI and performance issues, reducing bug reopens by 40%.
- Ensured responsive, accessible, and cross-browser compatible user interfaces.

PROJECTS

PalAsk – AI Platform (2025)

🔗 <https://www.palask.ai/>

Technologies: Next.js, TypeScript, Tailwind CSS

- Engineered AI-driven workflows enabling **content creation, monetisation, and engagement for global users**.
- Integrated OpenAI, Gemini, and Claude to **automate content pipelines and enhance UX**.
- Streamlined SSR and SEO performance, **achieving 40% faster load times** and a 25% increase in user retention.
- Fine-tuned **20+ reusable UI components**, reducing development time by 40% for future modules.

Together Buying - Group Purchasing E-commerce Platform (2024)

🔗 <https://togetherbuying.in/>

Technologies: Next.js, JavaScript, Sass / SCSS

- Designed a scalable Next.js e-commerce frontend using SSR and dynamic routing for SEO and performance.
- Implemented real-time **order tracking, countdown deals, and admin dashboards**.
- Optimised frontend performance using lazy loading and code splitting.
- Supported **500+ orders** by building and maintaining scalable, high-performance frontend workflows.

CERTIFICATIONS

React JS Aug 2022 – Nov 2022
